PLANS FOR NEW DAM Corewall, Spillway and Screen House to be of Concrete-Will Be 120 Feet Below Present Dam.

The plans and specifications for the contemplated work on the new dam at contemplated work on the new dam at Meadow brook are being secured by contractors preparatory to putting in bids for doing the work. According to the plans the dam will be over 600 feet in length with a core wall of concrete running through it most of the distance, there bein ga short section on the west side which is high ground and will not need such a wall. The corewall will be thirty feet high. The corewall will be thirty feet high, being 36 inches at the bottom and 13 at the top. There will be a thirty-foot spillway at the west side of the foot spillway at the west side of the dam, so arranged that the water will waste upon a ledge. The dam will be built 120 feet below the present dam. In front of the dam will be a fill which will be paced, it being a 2 to 1 slope, extending out 40 feet. On the outside there will be a soil fill of about the same distance. On top the dam will be twenty feet across. There will he excavating to be done in front and below the spillway and some sloping below the present dam and on the west side of the basin.

The gate house will be on the east

west side of the basin.

The gate house will be on the east side of the dam, where the large 24-inch pipe is, as it now runs from the present pond to Fairview reservoir. For about 90 feet the 24-inch pipe will be taken up, it being that portion from the present dam to a point near the new dam, and this will be used as an outlet, being relaid from the gatehouse at right angles with the dam emptying into the present brook below the dam. This is so that the wond can be drained if desired. There will be manholes in both the reservoir pipe and the drain pipe below the dam, with gates.

and the drain pipe below the dam, with gates.

In excavating the ground must be stripped of roots, soil and other material and the soil used for grading. The screen house will be about ten feet square, rising above the dam similar to the house at Fairview. It will have a bridge to it from the dam.

ILLUSTRATED LECTURE ON THE MADURA MISSION Given by Dr. Lewellyn Pratt as Pre-

pared by Dr. Chandler. The foreign missionary society of the Broadway church held their meeting on Friday afternoon in the parlors of the church. There was a large was a good attendance of appreciawith which the great blessing may be obtained; the amazing fact that He cietles of the city having been invited should be treated thus; and the amazing fact that He cietles of the city having been invited to meet with them. An illustrated lecter return visit to Norwich 1000 on her to meet with them. should be treated thus; and the amazing concern for the eternal weifare of man which He thus manifests.

The Harmony quartette sang. prepared by Dr. Chandler and loaned from the American board, was given by Rev. Dr. Lewellyn Pratt, Allen Latham assisting him with the views. Miss Gulliver, president of the society, welcomed the visitors. Scripture reading and prayer by Dr. Pratt preceded the song, What Though the Sky be Dark and Drear, given by Mrs. F. S. Young, F. W. Lester accompanied. The lecture gave a description of the city of Madura, which is 100 miles from the coast. It has a population of about 100,000. Views of the city showed the fringe of cocoanut trees After reports of the past year the following new cabinet was elected:
President, Lewis M. Carpenter; devotional vice president, Miss Marion Belle Wolcott; world-wide evangelism vice president, Miss Lillian Smith; mercy and help vice president, Miss F. Sybil Morgan; social vice president, George W. Wright; secretary, Ira M. Himes; treasurer, Howard N. Porter. of about 100,000. Views of the dry showed the fringe of cocoanut trees around it, a birdeye view and the prin-cipal buildings—the palace, temple with its idol cars, and the grand reswith its idol cars, and the grand reservoir. An imaginary journey was taken to the villages around Madura, visiting several noted temples and shrines and objects of interest. Views and notes of the people gave an idea of the native aborlgines upon which the missionaries have to work, and the great change possible in them, the Mohammedans, also the crude occupations and customs of the country. Views of the mission schools included Capen hall, Indiana hall, Washburn hall, the theological seminary, churches and hospitals. There are no great extremes of heat, but the average temperature is very high and the ford, his soh, who is attending the Pomfret school, and Philip E. Curtiss left Hartford Friday for Ormond. Fla., in order to watch the Ormond beach automobile races and the aeroplane races that are to be held there from Tuesday to Friday of next week.

Deserted His Wife.

Frances Wood of Norwich was given a bill of divorce from Burton M. Wood of Coventry because of desertion. They were married July 29, 1899, and he deserted her January 1st, 1905. Judge Wheeler asked the plaintiff if he ever gave any reason why he left her, and she said that he had, that his father wouldn't let him live with her. Last May Wood was arrested and brought before the local court for non-support. He agreed to pay so much a week for his wife's support. This was done for a time, but he soon stopped the payments. CLOSING NUMBER OF ACADEMY MUSIC COURSE Miss Katharine Goodson, Pianist, De lighted the Audience

here, g year ago, was remembered with much interest, and her name on the course again this year was the guarantee of another delightful eve-

ning. The programme opened with Schumann's mann's Fantaisiestucke—the four movements of which were played with expression and beauty of tone. Grieg's Sonata in E minor led up from this, with its distinct local atmosphere and increasing tempo, to the second part of the programms—the Chopin music. His Nocturns in G mapor, Waltz in A flat, Waltz in D flat, and Ballade were given with the dash and brilliancy characteristic of Miss Goodson's play-ing and were so enthusiastically ap-plauded that she added one of Cho-

plauded that she added one of Chopin's Preludes as an encore number.

The third group gave a pleasing variety of style in the Romance of Sibelius, the picturesque Tuchakowaky Humoresque, the Teolus by Gernsheim the merry Rigandon by Raff and the brilliant Rhapsodies by List.

Miss Goodson was again recalled and generously gave the additional number, Schumann's beautiful Nachtstuck, which closed the evening's programms. Miss Goodson was presented a large bouquet of pink roses at the first intermission, two of which she wore all through the remainder of the evening, making a pretty note of color on her making a pretty note of color on her pale blue satin gown.

CURE YOUR KIDNEYS

Do Not Endanger Life When a Norwich Citizen Shows You the Cure.

Why will people continue to suffer the agonies of kidney complaint, back-ache, urinary disorders, lameness, headaches, languor, why allow themselves to become chronic when a certain cure is offered them? Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their

work.

If you have any, even one, of the symptome of kidney diseases, tupe yourself now, before diabetes, dropsy or Bright's disease sets in. Read this Norwich testimony:

Patrick J. Fitzgerald, living at 36 Mechanic Street, Norwich, Conn., says: "I can guarantee Doan's Kidney Pills to be a reliable kidney remedy. When they first came to my attention I was having considerable trouble from pain and lameness across the small of my back and through the kidney regions. What I read about Doan's Kidney Pills made me sure they were just the remedy I required, and a short use of them proved that I was right. Less than the contents of one box removed the lameness through my back, eradicating the pains in my loins, and regulating the pains in my loins, and regulating the action of the kidney secretions. My advice to any person suffering from kidney Pills at N. D. Sevin & Son's drug store and give them a fair trial."
